Curl-o-metre

A tad tricky, you may need someone to help with this.

Takes a little skill and some practise to get this look right.

Super easy, anyone can do this look!

The curl kit

HAIRSPRAY:
Garnier Fructis Style Elastic Power Fix \$3.95

BRUSH:
Lody Jayne Brush 100% Boar Bristles \$27.49

STYLING CREAM:
Schwarzkopf Extra Care Curl Flex Creme \$8.99

The Look:
Lana Del Waves

Worn by Nevena, 16

The Inspiration:

Lana Del Ray

The Tool:

BabylissPro Ceramic Control Curling Iron \$84.95

The Steps:

1 Part your hair to one side.

Then divide your hair into four equal-sized sections. Clip each section away to keep them separate.

2 Beginning with the back sections, start curling from the base, up. First, hold the curling wand horizontally and wrap the hair around it, leaving it for around 10 seconds. Then, slide the wand out and pin the roll of hair to your hair, leaving it to cool.

DOLLY TIP: For perfect waves, always curl in a downwards direction.

3 Repeat step two with the front sections of hair and leave to cool.

4 Remove all the pins and brush out your curls with a soft-bristle brush. Be sure not to brush too hard! Spritz with hairspray to finish.
