BRUSHING UP

Apply your products like a pro with these staples. We've got your toolkit sorted.

POWDER BRUSH

Why you need it: The soft bristles and wide head allow an even finish. Plus, you'll use less product than with a puff.

The brush: Soft, round and large like **YSL Perfecting Polisher Brush**, \$60 (1).

BLUSH BRUSH

Why you need it: The ultra-soft bristles allow you to spread the colour of the blush without disturbing the foundation beneath it.

The brush: Soft, medium and dome-shaped like **Benefit Blush Brush**, \$39 (2).

FOUNDATION BRUSH

Why you need it: Essential for long-lasting foundation, this brush is perfect for blending and also buffing.

The brush: Round and fluffy with a flat tip like **Shiseido Perfect Foundation Brush**, \$49 (3).

LIP BRUSH

Why you need it: It's great for nailing a defined lip.

The brush: Small, flat and round-tipped like **BeautyPRO Lip Brush**, \$15.95 (4) will give you loads more control.

EYELINER AND BROW BRUSH

Why you need it: It's the perfect multitasking tool as it can be used on your lash line for eyeliner and for filling in your brows thanks to its slanted tip.

The brush: Small and angled with natural or synthetic bristles like **Nars Angled Eyeliner Brush**, \$44 (5).

BLENDING BRUSH

Why you need it: This brush is great for blending as it gets into the crease of your eye to define your lid with precision. Perfect for a smoky eye.

The brush: Flower-shaped with long, loosely packed bristles designed to blend like **Estée Lauder Blending Shadow Brush**, \$46 (6).

EYESHADOW BRUSH

Why you need it: Perfect for applying an even, all-over colour, this brush lets you press the eyeshadow into your lid, allowing the pigment to stay put on your peepers for much longer.

The brush: Small, stiff and flat like **Bobbi Brown Eye Shadow Brush**, \$45 (7).
