Whether you're after super-smooth skin, complete protection "down there", or the cutest thongs ever, you'll find it right here. Think of this as your to-buy list!

PURE GOODNESS

We only get one face, so it's a good idea to look after it. Happily, Swisspers Botanical Extracts does all the work for us. The skincare range contains natural ingredients, as well as vitamins A, C and E, minus the parabens and sulphates! Look out for it at Priceline and selected pharmacies.

MAGIC BULLET

This season, hair is all about volume, right? So say hello to your new best friend - the Silver Bullet Nano Ceramic Volumizer Crimper. Why will you get along so well? Just by crimping underneath layers at the root of your hair, you'll create long-lasting volume and full body - not a teasing comb in sight. Too easy! For stockists, visit datelinecity.com.

Ultra Pimples + Marks, a dermatologist-inspired wash and lotion range, helps reduce the cause of post-pimple marks. It literally gets to the root of your problem.
