DISCO CURLS

DIANE VON FURSTENBERG

THE HOW-TO:

1. Wash and condition your hair with a moisturising duo and create a deep side part while your hair is still damp.
2. Apply a curl cream or foam and blast-dry your hair, using your fingers to create volume.
3. Once dry, curl 5cm-wide sections of your hair with a 2cm barrel iron, pinning up each curl to cool and set.
4. Do your makeup while you wait for them to set. Unpin and brush out the curls using a bristle brush. Lightly tease the front section for added volume.
5. Tuck your hair behind one ear and spray flexible hold hairspray. Add a floral hair accessory.

BRAIDED PONYTAILS

HERVE LEGER

THE HOW-TO:

1. Ideally start with second-day hair – it'll hold your braid better. If you've got freshly washed hair, apply dry shampoo throughout.
2. Create a precise side part and then, starting at your crown, begin French braiding towards and across your forehead. Take hair from underneath so your braid is raised and chunky, and pull a few flyaways loose as you go.
3. Secure the braid into a low ponytail at the nape of your neck with a clear hair elastic and pull it over your shoulder.
4. Use a little lightweight hairspray to keep it in place. 💎
