SCHOOL-FRIENDLY GLAZE

Yep, unfortunately make-up at some schools is a no-no, but applied using the right (subtle) technique, blush can go completely undetected.

STEP 1: Place two of your fingers by your nose to feel where your cheekbone arches. That's exactly where your blush should start.

STEP 2: Reach for a fan brush to apply your blush colour. Tap the fan brush over your wrist to get rid of excess product before sweeping it lightly along your cheekbone, working upwards. Cos the fan brush bristles are so soft and light, it's the perfect tool for creating a feather-weight, very natural hint of colour.

1 BeautyPRO Fan Makeup Brush, \$7.95. 2 Klara Cosmetics Shy Blush, \$45. 3 Face of Australia Glamazon Minx Blush & Highlight Kit, \$9.95.

THE PEACHY BRONZE KISS

Pinks aren't everyone's jam. If you're usually a bronzer girl, try a peachy-toned blush for your very first fling with cheek colour. Peach-based pinks can create a sun-kissed effect and complement olive skin tones.

STEP 1: Using an ellipse-shaped contour brush, sweep a tiny amount of bronzer back and forth along the hollow of your cheek, under your cheekbone. To find out where your contour line sits, suck your cheeks in and form a fish face.

STEP 2: Now that you've given your face some definition, run a peach-hued cream or powder blush colour across the apples of your cheeks using a small to medium sized blush brush. This will create the illusion of that fresh, warm day-at-the-beach sheen (this is pretty much the dream, right?). Then, to revel in the summer fantasy, just dot on a couple of faux freckles using a round eyeliner brush and a blonde brow cream. Err, tell us what season it is again?

1 The Body Shop Honey Bronze Highlighting Dome in 02, \$29.95. 2 Art Deco Bronzing Glow Blusher, \$42. 3 It Cosmetics Heavenly Luxe Complexion Perfection Brush #7, \$48. 4 Artiste Contour Brush, \$21.95.

PEARLY HIGHLIGHTER

A shimmery taupe illuminator is the most modern way to do blush, and probably our fave. Illuminator adds the perfect touch of shimmer for formal night or a spesh event, and suits every single skin tone.

STEP 1: Using your index finger and thumb, form a 'C' shape, holding it against your cheek and brow bones. This 'C' shape maps out where your illuminator should sit.

STEP 2: Use your finger to dab illuminator along the top of your cheekbone, all the way

up around the brow bone. This will give off a subtle shine and highlight your bone structure. To tone down the gleam for a daytime event, blend the colour into your skin, using a spongy, dome-shaped beauty blender. Just make sure you dab rather than wipe. 😊

1 Red Earth Secret Potion Illuminating Skin Fluid in Magician, \$39. 2 The Original Beauty Blender, \$19.95. 3 Napoleon Perdis Metallic Multi-Purpose Illuminator, \$32.
