Neon Brights

Who wants to fade into the background? Say buh-bye to subtle with these fabulous fluoro finds.

NEON KNOW-HOW:

Don't clown around: Stick to one shade on one feature at a time. Rocking a bold lip? Team it with a dash of mascara. Going for bright eyes? Just a slick of nude lip gloss will do.

Practice makes perfect:

Even the slightest bump or nudge will show, so practice till you've got it down pat.

New to neon?

Don't freak out! Try taking baby steps with bright accessories.

Faux fringe

Bangs don't suit everyone and hair hanging on your face can take some getting used to! But don't find that out the hard way, fake a fringe fast with these clever tips.

GET THE LOOK:

Step 1: This look works best on clean, slightly textured hair. Use a curler or a tong to create soft bends through the lengths.

TRY: 1 Cloud Nine Micro Hair Straightener \$99 **2** Goldwell StyleSign Just Smooth Styling Milk \$22.95

Step 2: Using a large, round brush, blow dry the front section of your hair forward to get rid of any kinks or cowlicks (those annoying bends at your part line).

TRY: 3 Brushworx Ebony Radial Bear Bristle Brush from \$17.95

Step 3: Create a deep side part, starting from the outer edge of your eyebrow, and brush the front section of your hair across, making sure it's super smooth.

Step 4: Pin this section of hair in place under so the ends are hidden.

TRY: 4 Scunci No-Slip Grip® Bobby Pins \$9.96

Not quite ready for a chop? Hot for highlights but just a tad scared? Don't stress! We've got three super easy ways to try out your fave style before you buy it!

Faux highlights

AFTER

BEFORE

Wondering whether highlights are for you? Clip-on highlights are totally freakout-free and give your hair a volume boost too!

GET THE LOOK:

Step 1: Divide your hair into two sections (top and bottom) at the point just above each ear. Secure the top section up and out of the way with a clip.

TRY: 1 Gliders Hair Accessories Mega Grip Crocodile Sectioning Clips \$3.95 (pack of 2)

Step 2: Tease the roots of each bottom section and spritz with hairspray; this will give the clips on the hair extensions something to grip to. Clip in the extensions, with one on either side of your head and one at the back.

TRY: 2 Garnier Fructis Style Elastic Power Fix in Mega Strong \$5.95 **3** Hairdo Tru2Life Clip-In Spc System \$59.95

Step 3: To make the highlights blend with your real hair and look natural, wrap random sections around a tong to create a soft, wavy texture.

TRY: 4 BabylissPro Ceramic Curling Iron from \$77.95

Step 4: Repeat step 3, then let down the remaining hair and tong it so your natural hair and the highlights look uniform.
