TREND TO TRY: PLAITED PONY

- 1 Apply heat protectant to damp hair, then work in a handful of mousse for volume and hold.
- 2 Blowdry smooth using a paddle brush and concentrator nozzle to tame flyaways.
- 3 Once dry, comb in a side part and sprinkle texturising powder onto the roots for added oomph.
- 4 On one side, divide hair into three sections and braid, working towards the nape of your neck.
- 5 Repeat on the other side, then pull both braids back into a low ponytail and secure with an elastic.
- 6 Mist with hairspray to keep in place, or a shimmer spray for extra glam.
