## BLOW THEM AWAY

If you want to achieve a professional blow-dry at home and dazzle the room with your silky smooth locks, the Italian made Parlux 385 Power Light Ceramic & Ionic Dryer is for you. Incredibly lightweight yet powerful, it features a combined ionic and ceramic system that delivers extra power for super shiny, smooth hair. The effect of ceramic and negative ions allows heat to radiate directly into the hair without drying out the cuticle, so your hair's moisture is preserved. Available in a range of stylish colours (including new Aquamarine), it features four temperature settings, two speed settings, an instant cold shot button and two concentrator nozzles. Suitable for all hair types.
