BADGLEY MISCHKA

RUNWAY STYLE

badgley mischka

"This style is a modern take on a 1920s 'do," enthuses Overton. "It's elegant, but very fashion forward." Best of all, it's easier to create on hair that's not freshly washed.

READY, SET, STYLE: Mist hair with a heat protection spray. Overton suggests taking vertical sections and lightly spraying each with hairspray before wrapping around a large curling wand. "Do this all the way around the head," he says. Then, using a wide-tooth comb, break up the curls into soft waves and mist again with hairspray. "At the back of the head, start wrapping

the hair up and around to create an almost horizontal roll. Keep it loose and don't put too much tension in the hair," instructs Overton. "Secure the style with bobby pins." To finish, lightly spritz with hairspray.

STYLIST SECRET: "Make sure you comb the curls out to create subtle waves," suggests Overton. "This style won't work if the hair is too curly."

YOU'LL NEED: Premium Pin Company 888 Bobby Pins (1), from \$17.50 for 200g; TRESemmé Keratin Smooth Heat Protection Shine Spray (2), \$11.49.
