How to Grow out a cr

Should I still have regular cuts?

It's important to have your hair trimmed as usual when growing out your cut, says Joey. You'll notice the shape will change as it grows so it will need to be refashioned.

Texturise

Apply heat-protection spray to damp hair before blow-drying. Wrap small sections around curling tongs for a few seconds. Finish with a spritz of hair spray.

Playful Plait
