OLIVIA PALERMO

TIP

Bobby pins tend to go missing. Keep them in a small container so you know when you're almost out.

GAL GADOT

POST-WORKOUT HAIR

Make like Olivia and embrace your oily roots. Sweep your hair off your face, then take a small piece from one side of your neck and plait to the end. Pull it across and over your locks, and then pin into place. Repeat on the other side.

FRIDAY FUNDAY HAIR

End the working week with a modern mohawk vibe. Separate hair into two even horizontal sections. Braid the top section and tie with an elastic, then twist into a small bun and pin to secure. Repeat with the bottom section.

WASH AND WEAR HAIR

Show off your squeaky-clean tresses with a soft, romantic 'do like Sara's.

Rake a lightweight mousse through towel-dried hair and blow-dry smooth, creating a bend through the mid-lengths and ends using a medium-sized round brush. Go for a side part, then take two small sections of hair from each side and twist back behind your head, loosely securing together at the nape of your neck with a pin or hair tie. Mist with shine spray.
