FASHION INSPIRATION

Featuring on the catwalk both in Australia and overseas, the colour-blocking trend is all about boldly pairing bright, solid colours from extreme ends of the spectrum.

BEAUTY INTERPRETATION

Give your wardrobe a break and let your beauty routine do the colour-blocking. Start with a neutral or black ensemble and try a combination of bold-coloured beauty products on your lips, eyelids and nails. Think fuchsia pouts with gem-purple nails, or yellow peepers with acid-green talons!
