Celebrity hair trend THE LONG BOB HAIRCUT

Who's got it

When hairstyle trendsetter Jennifer Aniston cut off her trademark long locks into a sleek long bob (aka 'lob') earlier this year, it didn't take long for the rest of the celebrity set – including Selena Gomez and Claire Danes – to follow suit.

Cut and colour

Stylist Phillip Gallo of Gallo Hair (gallohair.com) believes that perfecting the lob is all in the cut, saying, 'If you have a round face, the length of the bob should be longer at the front. If you have an oval face shape, then you need it to be no shorter than the chin.' In terms of colour, this style works well with either solid colours or highlights. 'Solid colours make the bob look sleek, while highlights give a softer shimmer in the shape,' Phillip adds.

Styling tips

One of the great things about this haircut is that it can be styled in a number of different ways, which means you'll need a versatile iron and a few different styling products in your arsenal. 'For a casual look, tong the hair into a wave; or for a sharper look, straighten hair with an iron,' Phillip says. Whatever the style, a heat-protection product and finishing hairspray are a must.
