# Runway REPORT

We explain how to get the hot looks from the London, Milan and Paris fashion weeks

## DRAMATIC LIPS

**Runway** Defined crimson pouts did all the talking on the international runways.

**Real way** Bright reds suit fair skin, advises leading make-up artist Charlotte Tilbury. For a medium skin tone, she says, warmer shades look best.

■ **For pale skin:** Jane Iredale is the make-up of choice on hit TV series *Mad Men*. Try **Jane Iredale PureMoist Lip Colour** in Carrie (1. above), \$40.

■ **For an olive complexion:** The deep red of **Bourjois Paris Sweet Kiss Natural** in Rouge Soyeux (2.), \$23, is perfect.

Our best in show... the Gucci lip in Milan.

## BRIGHT EYES

**Runway** Models' eyes were set ablaze with muted brights and emerald eyeshadows, and electric blue eyeliner.

**Real way** Tone down this look by loading a fluffy eye brush with your fave shade. "A fluffy brush gives sheer coverage," says M.A.C senior artist Nicole Thompson. Tap off excess powder and dust over eyelid. Build up with light layers until you reach the desired shade. Finish with lots of mascara.

1. Green and blue eyes explode with a splash of pink. Try **M.A.C Pigment** in Madly Personal, \$39.
2. Are you a brown-eyed beauty? Go for shades of lush green. **B Collection by Bloom Eye Shadow Duo** in Daintree Rainforest, \$19.95, lets you take your pick.
3. Blonde hair teamed with muted yellow eyeshadow turns heads. We love **Shu Uemura Pressed Eye Shadow** in ME Yellow, \$39.
4. Blue eyes paired with a shot of blue eyeliner look great! **Nars Eyeliner Stylo** in Blue Bayou, \$58, goes from day to night with ease.
5. **Benefit Fluff Shadow Brush**, \$31, gives a soft, sheer coverage.
6. Green eyes pop with lilac. **Ulta3 Shimmer Liquid Eyeliner** in Purple Blaze, \$6.95, gives a soft shimmer finish.

## Crimp your style

**Runway** Yes, the crimp is back! Statement crimping (right) is the stand-out look on this season's runways and red carpets.

**Real way** Crimping results in long-lasting volume, says L'Oréal Professionnel session stylist Marie Cain from Head Studio in WA. "Leave hair loose, or go for an up 'do by crimping the diamond section of hair at the back from under the crown. Crimp from the roots to mid lengths, then brush it out. Tong the rest of the lengths for extra texture, then twist your hair into a sexy French roll and pin."

1. **BaBylissPRO Super Crimper**, \$89.95, crimps in seconds.
2. **L'Oréal Professionnel Tecni Art PII**, \$25, creates volume and keeps hair in place.
3. A lightweight spray like **Joico Design Collection Flexible Shaping Spray**, \$29.95, holds it in place.
