## NO MORE FLY-AWAYS

"Winter is when my clients need me most," says Sydney hairdresser and salon owner George Glavis. "Their hair, especially if they have fine hair, is susceptible to fly-aways caused by central heating and cold air. I use long-lasting styling products that tame hair regardless of the weather. One of my favourites is (1.) **Macadamia Natural Oil Healing Oil Treatment**, \$44.95." (2.) **Living Proof No-Frizz Shampoo and Conditioner**, \$39 each, will thwart humidity if that's a concern where you live, and (3.) **Tresemme Smoothing Creme**, \$7.95, also keeps frustrating frizz at bay. Another useful tip, from Jana Panoutsopoulos at People Hairdressing in Sydney, is to blow-dry your hair smooth and tie it back in a low or high ponytail.

## NEED-TO-KNOW FOUNDATION

This is the time to invest in a moisturising foundation that's packed with light-diffusing particles so your skin glows. These are our favourites...

1. Show off the classy **Shu Uemura Foundation Compact Case**, \$35, with the **Shu Uemura Face Architect Glow Enhancing Powder Foundation**, \$54, which gives a flawless finish.
2. Get great coverage and a tightening effect with **Elizabeth Arden Ceramide Ultra Lift and Firm Makeup SPF 15** in Warm Beige, \$78.
3. **Dior Skin Nude Natural Glow Hydrating Makeup Fluide Foundation**, \$77, is a real treat... like applying soufflé to your skin!
4. Top of our list is **The Body Shop Illuminating Face Base** in Apricot Glow, \$44.95. It moisturises, leaves your skin glowing and is affordable!

### LUSCIOUS LOCKS

We tend to neglect our hair during winter, but just like our skin it gets dry and damaged. A great reparative in-salon treatment can be truly transforming. We love the **Kérastase Chronologiste** hair treatment, which leaves your scalp feeling soothed and your hair shiny and full of body. For your nearest stockist, call 1300 365 552. At home we're big fans of the quick-and-easy **Pantene Pro-V 3 Minute Miracle Intensive Treatment**, \$7.99 (for a three-pack).

## A MEGAWATT SMILE

Pearly whites will always get you noticed, so brush up on whitening toothpastes that lighten teeth and fight cavities. Load your toothbrush with **Colgate Max White Toothpaste**, \$5.99.
