The souped-up cleanser

Foreo Luna Play \$59

The tooth protector

Oral-B Pro 1000 \$159

We're calling it, this newbie is the Rolls-Royce of toothbrushes! Not only does it sweep away 100 per cent more plaque than manual brushes, it comes with a two-minute timer that buzzes every 30 seconds to let you know it's time to move to the next lot of teeth. Plus, it indicates when you're brushing too hard, so it's perfect if you suffer with sensitivity.

The neck wrinkle remover

Rio 60 Second Neck Toner \$99.95

Dubbed the "gym for your chin", this anti-ageing device sends gentle electrical pulses through your muscles to help tone them and restore tightness to skin, so you can kick turkey neck to the curb.

The fuzz remover

Braun Silk-epil 5 SkinSpa \$299

Once thought of as a tool of the past, the humble epilator is back with technological advances and a growing fan-base. Not only does this device remove hair as short as a grain of sand, it comes with four extra heads that shave more sensitive zones, exfoliate to avoid ingrown hairs, and massage to nix dimples and improve circulation.

The body smoother

Sarah Chapman Skinesis Bodylift \$46

Created by UK celeb facialist Sarah Chapman, this tool is designed to mimic her in-clinic massage techniques to help with lymphatic drainage and circulation. Equipped with 12 rolling heads and 72 nodules, it helps reduce the appearance of cellulite while toning skin as you roll it over your legs, arms and bum.

The hairstylist

Silver Bullet Genesis Hot Air Brush \$79.95

If, like us, you haven't quite mastered using a blowdryer and brush at the same time, this genius dryer and styling tool in one has that dilemma solved. Perfect for when you just need to add volume to limp hair or quickly revive your fringe. Like a salon finish with just the swipe of a brush. LOVE!
