## NEW BIOLUMIN-C EYE SERUM BY DERMALOGICA

Supercharged Vitamin C eye serum outsmarts visible premature skin aging caused by daily eye movements and environmental stress. Lightweight serum delivers a highly-bioavailable Vitamin C complex to the skin around the eyes to dramatically brighten and visibly firm. Polyphenol-rich Arjun Tree Extract and skin-nourishing Chia Seed oil rehydrate the skin, improving elasticity and diminishing the appearance of fine lines. Nutrient-dense Tremella Mushroom and Micro-Algae blend locks in moisture, while Poria Mushroom helps boost skin's natural luminosity.

## MUTINY LIP BALM BY MEDIK8

Medik8 has launched its first ever lip balm - a squalane-based alternative to traditional petroleum based balms, that provides instant and long-lasting hydration. Mutiny differs from the majority of lip treatments on the market as it does not rely on occlusives such as petrolatum which provide a good temporary fix for dry lips.

Instead, this beautifully nourishing squalane-based formula absorbs into the lips to replenish lost lipids and provides a skin-like protection level that prevents any lost moisture and helps support natural healing of chapped lips. Mutiny leaves lips beautifully moisturised, soft and supple.

## TWIN 1000CC WAX HEATER BY BEAUTYPRO

No more juggling multiple waxes, no more mess, no more bulky heaters. BeautyPRO Twin 1000cc Professional Wax Heater is space-saving, time-saving and ultra-efficient. BeautyPRO once again delivers the best in wax heater technology. Featuring two separate wax wells, each with separate temperature controls. The separate wells can be used with different waxes, strip and hot wax, enabling faster and more efficient service at the same time. Each insert features a spatula bar to rest the spatula easily and with less mess plus an indent in the base to wrap the cord and keep it out of the way. This compact, refined unit saves space but still fits bulk wax for multiple day-in, day-out waxing services. Best yet we love the rapid heat-up and variable thermostat-controlled heat settings.
