NW beauty [★] 5 steps to flirty lashes

Amp up your flirt factor with luscious lashes, just like gorgeous star Hayden Panettiere

1 Lash extensions

WHAT ARE THEY? Between 25 and 35 semi-permanent polyester strands are bonded to your natural lashes to enhance their thickness and length.

HOW LONG DO THEY LAST? Between four and six weeks, with infills advised every two weeks to replace lashes lost in the natural lash cycle.

HOW MUCH DO THEY COST? Lash Beauty salons offer lash extension treatments, with prices starting from \$125 and infills from \$50.

2 Lash tinting

A lash tint not only makes lashes appear thicker and darker, it also enhances the colour of your eyes. You can expect to pay \$30 to \$40 for a brow and eyelash tint in a salon, so why not do it yourself? This at-home kit is available in five hues to suit all complexions – Black, Blue-Black, Brown-Black, Dark Brown and Charcoal.

3 Lash primers

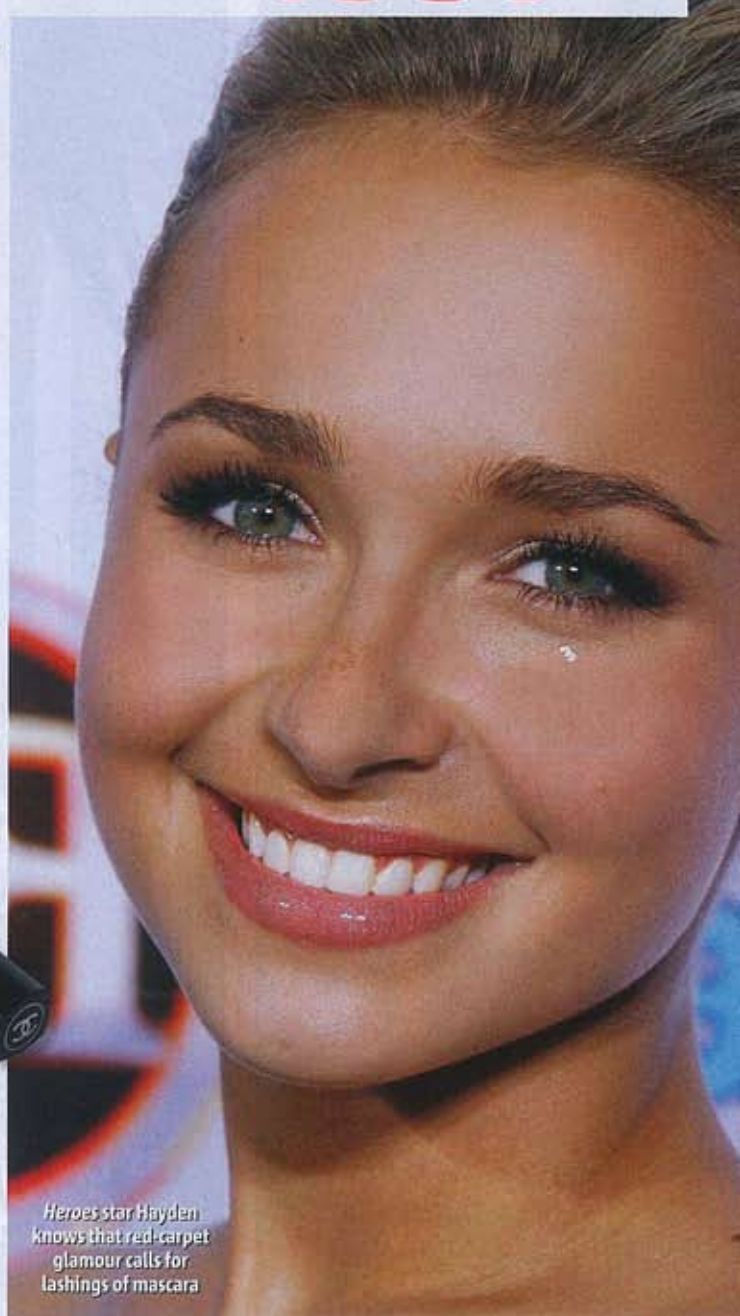

Apply prior to putting on your mascara to build up thickness in preparation for colour.

NW LOVES • Guerlain Divinora Supercils Fortifying and Amplifying Primer, \$50 • Jane Iredale PureLash Thickener and Conditioner, \$32 • M.A.C Prep + Prime Lash, \$25 • Red Earth Lash Treatment Base, \$20.
