COLD HARD LASH

Six ways to money-shot eyelashes.

1 1000 HOUR HEATED EYELASH CURLER, \$18.95

The look: A perfectly professional finish.

The lowdown: This heated curler takes our love of lash curling one step further by eliminating the awkwardness of manual ones, for a curl that really lasts. Simply hold the device to your lashes like a mascara wand and gently push down for five seconds.

2 LANCÔME HYPNÔSE PRECIOUS CELLS MASCARA IN DENSIFYING BLACK, \$52

The look: Dense lashes in blacker-than-black.

The lowdown: We can't wear falsies every single day, so you need a good volume-and-density-enhancing mascara for those occasions where glue-ons just don't suit: work meetings, a funeral, meeting his parents, etc. This mascara has the added bonus of a lash-care strengthening and regenerating formula to encourage new growth.

3 REVLON FANTASY LENGTHS EYELASHES IN WINK, \$10

The look: Flirty and flattering with minimum effort required.

The lowdown: A "half" lash designed to sit on the outer edge of the eye, giving lashes instant volume, length and definition. The short width makes them easy to attach for a subtle feline flick. Just don't throw them out at the end of the night, as they come with Maximum Wear Glue for reuse. Available at Kmart and Target.

4 SHU UEMURA BLACK VELVET FEATHER FALSE EYELASHES, \$120

The look: Obscene glamour.

The lowdown: Handmade with feathers, these babies give outstanding volume to lashes while mimicking the smoky-eye effect. Suitable for attention-seekers. Or, for your next Futuristic party, try shu uemura Premium False Lashes, \$120, (02) 9931 8888.

5 LASH ME PROFESSIONAL REUSABLE LASH ENDS (PACK OF 48), \$9.95

The look: '60s Twiggy-esque innocent eyes.

The lowdown: Not heavy, not subtle, these assorted single lashes are perfect for a semi-retro look and work best with statement fashion pieces. They come in a range of different sizes so you have the freedom to create multiple looks without fiddling around cutting each lash to size.

6 LOVE THOSE LASHES SEMI-PERMANENT LASH EXTENSIONS, \$180, AND REFILLS, \$50, 1300 LASHES (527 437)

The look: Movie-star lashes.

The lowdown: If you want 24-hour glamour, then you need eyelash extensions. It's a painless process that takes about one hour, where 30-40 single silk or acrylic eyelashes are delicately attached to your own lashes using a special bonding agent. The results are glorious, but you must be prepared to visit your salon fortnightly for re-fills to maintain the look.
