keracolorhair MINTY FRESH 🌿

@makaelatillman2 used Mint Color+Clenditioner to create this soft and minty color! Mint is one of our newer colors in the Color+Clenditioner Pastel family. It is great for creating a temporary color change, and also great for toning out any pinky tones you're trying to remove! That means we'll always leave your hair in "mint condition" 😊

We love the softness our Mint Color+Clenditioner gives you, both in the softness of the color and the softness of your hair after you use it. Do you LOVE how SOFT Color+ leaves your hair?! Tell us how much below!
