Your guide to daily glamour with Danielle Jackson

Campos is behind Beckinsale's glamorous-guest style. For great waves he suggests letting curled hair set in pin curls for 5-10 minutes.

Kate Beckinsale

Hollywood's go-to hair guru, Renato Campos, shares his top tricks for styling.

1 Secrets of goddess hair. "Body and shine are a must for a beautiful mane. If you don't prep hair with the right products, you're risking that the style will fall flat quickly and lack shine. For volume, use mousse from roots to ends on clean, wet hair. For shine, apply a pea-size amount of glossing cream to the ends of wet hair. The heat from your blow-dryer will lock in the shine."

2 Smooth moves. "To achieve a salon-like sleekness, you need a good iron. Look for one with ceramic plates that deliver high heat."

3 The everyday up-do. "Twist your pony into a knot and pin it up. An up-do not only gives you an extra day between shampoos, but it's a good fix for a bad hair day."

CHERRY PIE

You could call it the Gucci Effect: the Autumn 2012 collection saw Pat McGrath conjure up vampy dark lips as a tribute to "dark romance."

And we counted no less than eight A-listers working blackened cherry lips at the Met Gala in New York on May 7. Camilla Belle's "dark sexy lips" came courtesy of CK One's makeup artist, Hung Varrago.
