Ditch the blow-dryer!

Give your hair a summer holiday from hot tools with our simple three-step styling tips

TAME CURLY TRESSES

- 1 Towel-dry hair and apply a curl contouring cream that smooths ends.
- 2 Twist medium sections of hair – without pulling too tightly at the crown, as this will flatten your style – and secure with bobby-pins.
- 3 Once hair is dry, undo twists. Spritz in a lightweight hairspray designed for curly hair.

WE LIKE Redken Ringlet 07 Curl Bounce, \$29.99, enhances tighter curls. John Frieda Frizz-Ease Spiral Style Curl-Defining Spray Gel, \$16.99, holds and polishes. Not Your Mother's Kinky Moves Curl Defining Hair Cream, \$14.95, works on finer, frizzier hair.

ADD BODY TO STRAIGHT LOCKS

- 1 Comb an ultra-light mousse through semi-wet hair with a vent brush.
- 2 Next, loosely plait medium sections from mid-lengths down, and leave in until hair dries.
- 3 Take out plaits and scrunch in a texturising spray from mid-lengths down to ensure your style stays put. For more volume at the roots, sprinkle in a styling powder.

WE LIKE Big Sexy Hair Root Pump Plus Volumizing Spray Mousse, \$25.95, is a lightweight formula. Brushworx Keratin 230 Vent Brush, \$11.95, helps coat every strand. L'Oréal Professionnel Play Ball Beach Fizz Salty Spray, \$29, gives you effortless waves.

Kate Moss puts texture in her straight hair.
