byamygee Raise your hand if you're a dry shampoo devotee like me 🙋

I was very kindly sent these @designmehair Quickie.ME Dry Shampoo products to try and have been very impressed by them!

I'm used to using a dry shampoo that's for all hair colours, so when I used this one that's specifically for brown hair I was amazed!! I actually didn't know you could get dry shampoo that doesn't leave a white hue along your part line 🥰

And the foam is fascinating!! When I first applied it through my hair I was sceptical if it would work coz my roots had been dampened by the foam. But once I worked it through and the dampness dried my roots were fresher and my hair was noticeably more voluminous! 🥰

Also for those of you who like to purchase cruelty free and/or vegan products, all of Design.ME's products tick those boxes ✓

Based on my experience so far, these dry shampoos get a big thumbs up from me and my perpetually unwashed hair 🥰

This is a #ad with products sent to me for free by @iglamour_au but these opinions are 100% my own 🥰
