**1** Massage a curl-enhancing mousse into damp strands to encourage body. Mist with heat protectant spray before blowdrying.

**2** Comb locks to detangle. Vertically wrap small sections around a curling tong, winding away from the face. Hold for 10 seconds, then release.

**3** Create a rough side part at the hairline. Scoop three sections of hair from one side and craft a tight braid. Secure with an invisible elastic.

**4** Pin the braid's end behind loose hair, then spritz with hairspray to hold.

**5** Work texturing powder into roots. Spritz tresses with shine spray to finish.
