At-home hair extensions have come a long way, with quality clip-in pieces that give you extra inches in minutes. Here, we show you how easy it is...

## SPLURGE

## Pump up the volume

Using two clip-in hair pieces...

- 1** Horizontally part the lower section of your hair from the top, taking a straight line from the top of one ear to the other.
- 2** Clip the top section of hair out of the way and tease the bottom section along the part - this will give the clips something to grip on to.
- 3** Attach the extensions by closing the middle clip first to make sure it's centred, then clip the others firmly and as close to the scalp as you can so that the hair sits flat.
- 4** If you have a second piece, make a second part 2cm higher than the last, and repeat steps two and three.
- 5** Release the top section of hair so the clips are covered - and voilà!

## One clip pony

Using a clip-in pony:

- 1 Put your natural hair up into a high ponytail and lightly tease for extra volume.
- 2 Using your pony extension, wrap it around the hair tie and secure with the Velcro hold.
- 3 Wrap the extra piece of hair at the side around the clasp and secure the end with a bobby pin, and you're done!
