## RAWW

Your skin, while tough, is susceptible to damage from clogged pores caused by non-breathable foundations made from heavy clay and other nasty toxins. Overuse of these heavy foundations can cause inflammation or irritation as the skin has no time to recover. That's where we can help. Our foundations are made with 100 per cent natural ingredients that are actually good for your skin! Superfood ingredients like hydrating coconut water, cleansing Rosehip oil and tightening Acai berry give your skin the love and care it deserves, all day long. All of our foundations are Certified Cruelty Free, Certified Cosmos Natural and Australian Made, meaning only the best quality products make it out to our Rawlings! Available at selected TerryWhite Chemmart pharmacies.
