YOUR
GUIDE TO
DAILY
GLAMOUR

Like a good Bordeaux, Paltrow gets better with age.

LOVE HER LOOK

GWYNETH PALTROW

Star stylist Harry Josh coiffed Paltrow for the Oscars, created Gisele Bündchen's waves for the Met Ball and was behind Rose Byrne's banging fringe. The New York-based guru shares A-list secrets to add life to your locks.

1 How can the average woman get a decent haircut? Stop it with the funky haircuts. Get an easy one, one without too many layers. Show your stylist images of cuts you like and similar cuts you don't like. This will help you nail your look.

2 Must-have product? The Touch Up Flyaway Tamer by John Frieda. It's a miracle wand. If your hair is in a ponytail or a bun, you just pull the brush around your face and ears. It makes everything sleek and amazing.

3 If your hair is fried, how can you improve it? If you're going to keep colouring and using a flat-iron, it's never going to be 100 per cent healthy. You need an inch trim every six weeks, a weekly masque and at least two days a week without heat tools.

HOT BOB

Add a few face-framing layers and the style formerly known as "I'm growing it" is the hottest cut in town. Layers "give hair movement and keep the style looking natural and not too triangular on the bottom," says Jennifer Aniston's snipper, Chris McMillan. Get kinky with curling tongs.
