Brow KNOW HOW

Five minutes with
Annie Ford Danielson

Find your perfect shape with a little help from an eyebrow expert

Instantly lift your face with brow shaping advice from a professional.

As a global beauty authority and daughter of one of the founders of global brow empire Benefit, Annie's had, well, her eye on eyebrows for most of her life!

We sat down with the brow pro and asked for her secrets to perfectly shaped, youthful brows...

Keira Knightley

Do as Keira does and get yourself a pair of youthfully defined brows.

Annie's go-to kit

Benefit Brow Zings \$55 is the ultimate eyebrow grooming kit.

Benefit High Brow Glow \$39 lifts brows when applied below the arch.

Tweezerman Point Tweezers \$29.95 plucks the finest hairs.

Benefit Gimme Brow \$32 is a volumising fibre-gel that mimics the look of real hair.

Annie's brow map

For hairy caterpillars in need of a good tweeze, Annie recommends an at-home Benefit Brow Map, which involves mapping out where your brow should start, arch and end. Once you've made your map, tweeze away any strays that fall above or below the lines, she says.

The start "Take a hard-angled brush and line it up with the inner dimple of your nose going straight up until it meets the brow. This is where your brow should begin."

The arch "Hold the brush at the outer corner of your nose, angle it until the handle passes the

pupil and the brush tip touches the high part of the brow. This is your ideal arch."

The end "Keep the base of the brush at the outer corner of the nose and angle the brush tip until it lines up with the outer corner of your eye. This is where your brow should end."

Maintenance

"I recommend getting your brows done every 4-6 weeks. Our hair grows in cycles, so timing will vary.

IGNORE THE TRENDS

Annie recommends avoiding brow trends – just like clothing, certain looks only suit some people! Simply go for the brow shape that's right for your face

In between salon appointments, if you have any stray hairs that pop up or out, take a pair of tweezers and proceed with caution. One of the most common brow oopsies comes from over-eager tweezers."

Forever young

"I was taught two very important lessons when it comes to looking younger. Firstly, fill in your brows – full brows are the telltale sign

of youth and well-groomed brows open the eyes and give an instant lift. Secondly... make older friends!"

Keep it natural

"Don't follow brow trends – instead go for the brow that's right for your face. That's where Benefit Brow Mapping comes in. It's our unique way of identifying the perfect brow shape for every face. Don't change your natural shape too much!"

TRIED & TESTED

PRODUCT Neutrogena Pore Refining Daily Cleanser \$14.99
TESTER Ashleigh Cowdroy, freelance beauty writer

Health and beauty writer Ashleigh treated her pores to the ultimate clean-out...

PROMISE Refined pores and smooth, crystal-clear skin.

INGREDIENTS This snazzy cleanser uses ingredients such

as alpha and beta hydroxyl and claims to significantly help reduce the size of facial pores in just one week.

ASHLEIGH'S REVIEW

"I was in need of a serious clean when this new product came across my desk. I was

initially a little bit worried because I've found in the past that pore-refining cleansers usually dry out my skin. Happily, after using this new one, my skin felt taut and spotless – and not at all dried out. Definitely a winner."
